

The diagram illustrates a multi-campus network topology. A central 2500-24PS 3A-Campus2 switch acts as the core, connecting three separate campus networks. Campus B&B (left) is connected via a 2950-24TT S-Campus2 switch and includes two repeaters and two PCs. Campus 1 (middle) is connected via a 2500-24PS 3A-Campus2 switch and includes two repeaters and four PCs. Campus 2 (right) is connected via a 2950-24TT S2-Campus2 switch and includes a 2950-24TT S1-Campus2 switch, a 2650-24TT S4-Campus2 switch, and various servers and printers. The connections are shown with dashed lines, indicating logical or physical links between the switches.
